Congress Demands 'Independence, Here And Now'

Sardar On Britain's Biggest And Last Opportunity

Assures New Era Of Friendship As Between Two Equals, If Real Power Is Transferred

BOMBAY, March 22. (A.P.I.): Sardar Vallabhbhai Patel, on the eve of the British Cabinet Mission's arrival in India discussed to-day with the Associated Press of India, the prospects of the forthcoming negotiations.

The Sardar made out the following points:

1. India demands immediate transfer of power. She can brook no further delay.

2. The Congress is prepared to provide adequate safeguards to protect the legitimate minority interests, but is not prepared to accept Mr. Jinnah's demand for the division of India.

3. The Congress does not envisage any serious trouble, if real power is transferred.

4. The next few weeks will present "the biggest and perhaps the last opportunity" to Britain to settle the Indian question amicably.

5. The present bitterness between Britain and India will disappear and a friendly alliance between the two countries is possible, if power is transferred immediately.

6. In International and Foreign Affairs, Independent India will always stand for world peace. She has no aggressive intentions.

7. Independent India will have her own army strong enough for internal and external defence. But she will not require a huge standing army as other nations, because she has no intentions of external aggression.

8. Independent India will try to maintain friendship with all nations.

NO FURTHER DELAY
"Our demand, that is India's demand," the Sardar said, "is immediate transfer of power. India can brook no further delay."

As for the prospects of the successful conclusion of the forthcoming talks, the Sardar said, "while I do not attach much importance to promises and declarations and always prefer to wait action, I must say that the recent declaration by the British Premier, Mr. Clement Attlee, in Parliament was both clear and had an undoubted ring of sincerity about it."

MINORITIES
"For the first time in recent years," continued the Sardar, "the British Government have changed their attitude regarding the minorities. The Congress has always been for the protection of the legitimate rights of the minorities, but during the war the British Government adopted an attitude of 'wait and see' until an agreement had been reached between the Muslim League and the Congress and at the same time encouraged the Muslim League to adopt an obstructive attitude by making impossible demands, thus providing the League with the power of veto, which it effectively exercised throughout the period of the war. I am glad that the British Prime Minister has now made it clear that no minority will be allowed to stop the progress of the majority. This declaration refers only to the Muslim League."

IMPOSSIBLE DEMAND
"The Congress is prepared to go to the farthest extent to meet the legitimate demands of the minorities and provide them with all reasonable safeguards, but the Congress cannot concede the impossible demand for the partition of India, the Pakistan demand of Mr. Jinnah."

"The partition as proposed by Mr. Jinnah will not only be unfair to the Hindu and Sikh minorities in the Punjab and Bengal but actually endanger the safety of both the Constituent parts."

"The Congress Working Committee has in its resolution gone the maximum extent possible in meeting the Muslim League demand for self-determination. That resolution says, 'The Congress cannot agree to any proposal to disintegrate India by giving liberty to any component State or territory unit to secede from the Indian Union or Federation. The Congress, as the Working Committee declared in April, 1942, has been wedded to Indian freedom and unity and any break in that unity, especially in the modern world when people's minds inevitably think in terms of ever larger federations, would be injurious to all concerned and exceedingly painful to contemplate. Nevertheless, the committee also declared, it cannot think in terms of compelling the people in any territorial unit to remain in an Indian Union against their declared and established will.' This is the farthest limit to which the Congress can go. No reasonably minded

END OF BR. MANDATE FOR TRANSJORDAN

NO FOLLOWING FOR COMMUNISTS

That India will not adopt a policy of ostrich-like isolation has been amply proved by the continuous interest taken by the textile workers of the Congress observed Mr. S. K. Patil in the course of his speech delivered at Panwala Chawl compound, Lalbaugh on Friday night, Mr. V. S. Kulkarni presiding.

Assured of further support from the textile workers, Mr. Patil said that up to now Congress had won 115 seats out of 175 seats and lost none. The Congress was going to get 15 more seats in three fourths of the whole province would be voting for the Congress candidates.

Mr. V. S. Kulkarni, a prominent leader of the Hindustani Mazdoor party said that the Communist Party had already come to know of their miserable failure. He said that the workers had completely proved that communists had no following in the country.

Mr. M. Y. Nurie said that the communists started openly attacking the Congressmen at meetings held at Sultan Chawl, Lalbaugh, Kala-chowki and several other places. They proved themselves to be Anti-Congress so they had lost their hold on India.

War-Mongers Must Be Curbed "In Good Time"

LONDON, March 22. (Reuter): Premier Stalin told an American correspondent, according to Moscow Radio today: "I attach great importance to the United Nations Organisation as an important instrument for safeguarding peace and international security."

NATIONS DO NOT WANT WAR
"Its strength consists in the fact that it is based on the principle of equality among States and not on domination of some over others. I am convinced that nations do not want a new war but only peace."

"I believe that the present fear of war is caused by some politicians who are sowing the seeds of dissension and uncertainty. To preserve peace and tranquillity, warmongers should be exposed and given no opportunity of abusing freedom of speech against the interests of peace."

Generalissimo Stalin's statements were made in the form of replies to a series of questions on

EXPOSE WARMONGERS
Question: "What must the Governments of freedom-loving countries do now to preserve peace and tranquillity throughout the world?"

Answer: "It is imperative that the public and ruling circles of States organise wide counter-propaganda against the propaganda of a new war and in the interest of security that no utterance of the propagandist of a new war be left without adequate rebuttal both by the public and the press, so that warmongers will be exposed in good time and given no opportunity of abusing freedom of speech against the interests of peace."

KURDISH BID FOR INDEPENDENCE FROM IRAN

Tribesmen Besiege Three Persian Garrisons; Gunfire Reported From Frontier

BAGHDAD, March 22 (A.P.A.): Kurdish Tribesmen have surrounded the three towns of Sardasht, Banah and Sakiz, a British officer who had returned from the Kuruk District told the "Associated Press of America" to-day.

The officer said that persons returning to Kuruk from the Iranian frontier near Sardasht had reported hearing gunfire. "The Persian garrisons occupying the three towns are now surrounded by Kurdish tribesmen, who are sitting in the hills awaiting a chance to strike," the officer said.

"In situations such as this, the Kurdish tactics have been to maintain a blockade of the towns and wait for the garrison's supplies to run out," the officer added.

Majid Bey Mustafa, veteran Kurdish leader, commenting on reports that three Persian garrisons were being attacked by Arab Kurds, who have asked for independence said that "in all probability these attacks are being conducted by tribal groups from the area in the triangle formed by the towns of Sardasht, Banah and Sakiz."

SARAWAK PEOPLE RESENT CESSATION

SINGAPORE, MARCH 22. (Reuter) The transfer of the Borneo "Kingdom" of Sarawak—of which Sir Charles Vyner Brooke is the hereditary Rajah—to the British Crown is rejected by the Malay National Union of Sarawak in a cable sent to Tuan Muda—Bertram Brooke, brother of "the White Rajah" and the heir presumptive—it was learned here tonight.

The cable, inviting Tuan Muda to visit the country immediately with his son Rajah Muda said: "The indigenous people do not accept as valid the arrangements signed by members of the Supreme Council regarding Sarawak's cession. They disagree with the cession and their will is that the Government of Sarawak be handed to Tuan Muda or to his son Rajah Muda if the Rajah is incapable of ruling."

Delay In Handling Iran Dispute Dangerous

If U.N.O. Fails World Hopes Will Go Down, Warns Churchill

NEW YORK, March 22. (U.P.A.): Former Prime Minister Winston Churchill to-day warned that a United Nations Security Council delay in handling the Iran dispute was very dangerous and that the world might be confronted with a fait accompli or the establishment of a Quisling regime by such a delay.

Mr. Churchill made the statement in the course of an exclusive interview with Jack Bischo, United Press of America vice-president, aboard the "Queen Mary" a few hours before sailing.

Mr. Churchill said, "It would be most dangerous to let matters go from bad to worse on the Persian-Turkish-Iraq frontier where it is easy to raise disorders. With money, forces and inflammatory propaganda, lawful governments may be overthrown, a state of disorder created and a quiescent government installed. The Security Council must show that it is a reality and not a pretense in dealing with the facts and the truth."

Mr. Churchill added, "I trust that the world organization will not allow itself to be confronted by a fait accompli."

IRAN, TEST OF U. N. O.
He said the Iran issue was "obviously the most important test for the United Nations Organization since the beginning of its career." However, he thought that it was not beyond the U.N.O.'s capacity.

"If the U.N.O. is shown to be helpless and futile, a most grievous blow has been struck at the instrument upon which the world's hopes have been founded. I share those hopes. A resolute effort must be made by all concerned to prevent future wars. This can only be done by dealing with disputes before the parties concerned have got into a position from which they cannot withdraw," Mr. Churchill said.

HITS AT FRANCO
When questioned in regard to Spain, Mr. Churchill said, "If I were a Spaniard I would not wish to live under the government of Generalissimo Franco but it seems he must be most grateful, particularly to the French, for giving him a new lease on life."

The Spaniards are a proud, morose people with long memories going back even to Napoleon's peninsular war. They do not like dictation from a foreign power. I am sorry the French government yielded to Communist pressure and picked a quarrel with Spain. Left to themselves, the

CRAWFORD & CO.

The Thyaga Brahma Mahotsava Sabha, Madras, has issued the following appeal:—

MUSIC in this country has always been considered as a path leading to salvation. It has never been practised as an end in itself, but only as a means to an end. Hence the twin development of sainthood and musical genius in India. From the days of the Hindu and Chaitanya there have flourished many devotees who have sought their God through the medium of music. Ramanand, Tukaram, Mira Bai, Purandara are names that rise to our minds in this connection. The great gaikya Saint Thyagaraja may be said to have been the last.

He lived and died in Tiruvadi, in the district of Tanjore in South India during the first half of the nineteenth century. To him God Himself was the sole preoccupation of his living hours. He sought him, praised him, pleaded with him, even got into ecstasies in the true tradition of mystics. This he did by means of beautiful songs, using a pattern called the "kriti" which has now become the prevailing form of musical composition. It was so much so that music that was composed in the time before his time is no more than a historical substratum that calls for study and research.

The centenary of the birth of attainment of "Samadhi" the day of attainment of the highest spiritual state, of the great Saint musician comes off early in January 1947. It is proposed to celebrate this function as a National Festival in Madras.

It is also proposed to start a music "Gurukul" at Tiruvadi on the occasion. A series of music concerts have been arranged in the principal cities of India to collect funds for this celebration. A concert will be held in Bombay on the 7th, 8th and 9th April by that famous musician of South India—Srimathi M. S. Subbalkshmi. It is the earnest hope of the organiser that music-loving pupils will be induced to extend their full support and co-operation in so worthy a cause.

With this end in view, a committee has been formed in Bombay with Mr. Gnanananda Aiyar as chairman and Mr. H. Sivaramanarayanan as Secretary.

Crown Police Force Marches Into Lathi State

BOMBAY, Thursday.

The publicity officer of Lathi State wires to say that Lathi being the only state which has not joined the C. P. Attachment Scheme, Col. Cox, Political Agent, Eastern Kathiawar Agency, arrived here this morning with a platoon of the Crown police force, to get the Lathi State into the Thakore Saheb, which is pointed out as the line of what was done at Bajanatha.

The publicity officer adds the Thakore appears to be intent on one thing only, that is, that the constitution of the Lathi State for the last 12 years, with the further reforms granted by him in July, 1945, should not be interfered with. He is also anxious to see that, he is not asked to do anything which is considered unreasonably to any proper proposal. It appears that he has informed Bhavnagar accordingly.

MAKE INDIA SELF-SUFFICIENT

KARACHI, March 21. (APD): The hope that the United Nations Food Organisation would come to India's aid and supply her 6,000,000 tons of wheat and rice to enable her to tide over the present food crisis was expressed by the Chairman of the Produce Exchange of the Karachi Indian Merchants Association at its Annual General Meeting today.

The Chairman said that India had never been self sufficient in the matter of food and used to make good the deficiency by importing rice from Burma and Siam. When these countries were run over by Japan, the supplies were cut off but the Government took no steps to put the food economy on sound and permanent basis. He urged the authorities to launch an intensive drive on a long range basis, to make India self-sufficient, and pleaded for making agriculture independent of rainfall.

Chinese Reds To Boycott People's Political Council

CHUNGKING, March 21 (Reuter).—Communists will not attend the People's Political Council (China's wartime Parliament) the prominent Communist Mr. Tung Pi-Wu declared today.

Communist delegates were no present when the Council opened its session yesterday.

Mr. Tung said an influential clique had monopolised the Council and was bent on sabotaging the unity of the decisions reached at the recent inter-party conference.

"The People's Political Council meeting would be a farce, Mr. Tung added," as it would be mere repetition of the recent session of the Central Executive Committee of the Kuomintang Party.

'Not Soviet Submarines But Former German U-Boats'

BATavia March 21. (Reuter). The mystery submarines described as Russian reported to have been seen south Java may have been former German U boats.

This was one explanation advanced tonight after the highest official quarters—British Dutchand Indonesian—had expressed surprise or ignorance about the report.

German submarines were found by the Allies in north Java ports and it is possible some remained in southern Java ports. It is suggested that one or more of these may have been put to sea with Japanese or Indonesian crews.

"Ajmal" Editor Acquitted

Mr. M. Harris, Editor "Ajmal" Daily and Mr. U. H. Khan, keeper of the Ajmal Press, who were charged under the Defence of India Rules for the contravention of the Paper Economy Control Order, were acquitted today by Mr. G. A. Sabnis, Presidency Magistrate at the Mazagaon Court.

The charge against both the accused arose out of the printing of a handbill for the B.E.S.T. Workers' Union in April last calling upon the workers of the B.E.S.T. Co. to go on a ten minutes' strike to express sympathy with the Chinmuri and Ashti prisoners. The prosecution contended that the handbills printed by the accused in the Ajmal Press were meant for gratuitous distribution and this was a contravention of the Paper Economy Control Order. Mr. K. K. Shah who appeared for the defence argued that the handbills were issued on behalf of a registered Trade Union and were meant for the members of the Union only. Further, the expenses for the same were borne by the Union out of the subscriptions collected from the members.

It was wrong to hold that they were meant for gratuitous distribution, the court upheld this contention, the defence and acquitted both the accused.

It would be recalled that Mr. Abdull Jafferbhai President of the B.E.S.T. Workers' Union and the former Organising Secretary of the Union who were prosecuted before the same Court on the same charge were acquitted by the Court earlier.

Sportsman's Sportsfolio

BY J. C. MAITRA.

Have you ever heard of a sporting association closing its doors to aspiring members? Yes, we have. This has to be done in many cases when they are over-crowded. But is that the position with the W.I.F.A. which has stopped enrolling new members for some time? I do not think so. It is rarely that we see the Members Stand at the Cooperage over-crowded by the members of the W. I. P. A. Hardly 50 or 60 of them attend daily. The rest of the 300 seats either remain vacant or are occupied by non-members. With the pre-war conditions returning soon I am afraid the larger attendance of the Service personnel we saw during the last three years will become an empty dream even during the coming season. So the W.I.F.A. would be wiser to open its doors to all those who are keenly interested in the development of the game. They are the real supporters.

PROHIBITION URGENTLY NEEDED

The membership has been closed because the W.I.F.A. cannot accommodate the thousands of stands, but because their 'Club House' is over-crowded. Now let us be clear about this part of the question. It really means the bar. For the life of me, I cannot understand why a bar has got to do with the development of football. From all the codes of sport I know drinking is strictly prohibited to all players. Then why should it find a place in a sportsman's life? If, for one, would ban it for all time.

Even my suggestion that the Club Membership should be separated from the Association Membership, so that the latter may enjoy sporting amenities minus those provided by the bar, has not found favour with the powers that be. I hope one of the first things the Congress Ministry would do would be the introduction of prohibition in this city. It will keep out from the sporting bodies those who are interested in the bar—and not sport. Such a cleansing of the sporting field is urgently needed.

GOLD CUP FOR WOMEN'S HOCKEY

In the matter of women's hockey, Bombay is going to give a lead to the rest of India by presenting a gold cup for an All-India competition. After seeing the gold cup which the Lusitania won at Madras last year an enthusiast has offered a similar cup to the B.P.H.A. The competition will start at the Association ground by the end of this month, the entries for which will, I understand, close on 28th instant. I do not know if any of the up-country teams will be able to take part in it owing to the heavy expenses involved. As it is not a paying proposition, the B.P.H.A. and its members will have to offer financial assistance to them. Still I hope up-country teams will be attracted towards it by and by and, with more favourable conditions returning to them, they will consider it worth their while to try a hand at snatching the gold cup—even though for a while!

NADKARNI CUP INNOVATION
While we are still in the midst of the hockey season football will make its appearance. The W.I.F.A. intends to start the Nadkarni Cup which is open to Indian teams only on March 30. As too many clubs enter this tournament every year, they have decided to hold a preliminary competition, so that the weaklings will be weeded out before the tournament proper is staged. This will save both top-notchers and the rabbits from meeting one another and thus there will be fewer massacres of innocents! It is proposed to 'seed' eight of the leading sides which will go into the heat with the last eight of the preliminary rounds. A further innovation will be introduced—in that the semi-finals will be played twice and those who score the highest number of goals will be declared winners. If nothing else, it will be an incentive to the players in score as often as they can.

TATA SHIELD TENNIS
The Tata Shield will commence at the Bombay Gymkhana to-day. It was inaugurated by the late Sir Dorabji Tata, who was a great lawn tennis enthusiast, at the Wellington Sports Club nearly twenty-five years ago. He did it with a view to encourage team spirit and team-work among the players and also to increase social contact between the players of the various clubs. In fact this was the natural development of a beginning I had made at the P. J. Hindu Gymkhana, as its Honorary Tennis Secretary, about that time. As the Wellington Sports Club was unable to shoulder the responsibility of its management, it was later handed over to the Bombay Gymkhana. It is gratifying to note that a fairly good number of the local clubs have joined the lists. But until our premier Gymkhana get their premises back, it will not be possible for them to take their rightful place in a competition of this character. Will this day come soon?

The inaugural function of poet and dramatist Harindranath Chattopadhyaya's first screen venture came off on the 21st inst., when he was at home to numerous friends and admirers at the Yazdan Restaurant at Dadar. In a short speech he explained the reasons of his decision to use the screen as a medium for his future activities and for the propagation of social welfare.

India is in bondage for the last 200 years, said Harindranath, and unless the masses were awakened to the slavery that had enshrouded them, so firmly, India would not get its independence. It was with intention that he had put his hand to the film and expected that his film "Azadi" would serve the cause of the people nobly. Mr. Aspendiar K. Azad, with whom co-operation Harindranath is going to produce this picture, said that Harindranath was claimed not only by India but by the whole world. "Azadi" was going to be a national picture, a picture which would be a symbol of India's march towards freedom. Mr. Aspendiar concluded his speech by saying that he was determined to put the poet's gifts to their best use and assured all those present that he would make "Azadi" a National Anthem.

This picture which is proposed to breathe the very spirit of Azadi, or 'independence' has gone into production almost immediately and Mr. Aspendiar and Harindranath are determined to present a real and true picture of MOTHER INDIA and it is hoped that the foundation in the production of National pictures which has been so bravely and courageously laid down by Aspendiar, will be followed by many more who have India's goodwill and welfare at heart and are working for India's "AZADI".

Housing Scheme For Greater Bombay One-Room Tenements To Go

In connection with the Greater Bombay Scheme that the Government of Bombay are considering, they appointed on June 1, 1945, a Committee with a view to coordinate the activities of the various authorities associated with the scheme. To advise the Committee on relevant matters three Panels were appointed at the meeting of the Committee held on 22nd June 1945, for (1) Town Planning, under the Chairmanship of His Worship the Mayor of Bombay, Dr. Jos. Alban D'Souza;

(2) Housing, under the Chairmanship of Mr. S. L. Silam, the Chairman of the Standing Committee Bombay Municipality, and (3) Railways and Traffic, under the Chairmanship of Mr. A. S. Trollop. The three Panels were requested to submit their report and draft proposals for consideration of the main Committee within three months from the date of their appointment. The following were appointed as members of the Housing Panel:—

(1) Mr. S. L. Silam, Chairman; (2) Mr. U. M. Mirochandani, Municipal Commissioner; (3) Mr. F. M. Surveyor, Chief Engineer and Nominee of the Chairman of the Bombay Port Trust; (4) Mr. J. C. Lancashire, Represen- tative of the Mill Owners' Association; (5) Mr. Habib I. Rahimtoola, President of the Muslim Chamber of Commerce; (6) Mr. Kanji Dwarakdas; (7) Mr. Claude Batley, Representative of the Indian Institute of Architects; (8) Mr. G. P. Mureshwar, Representative of the Provincial Co-operative Institute; (9) Mr. H. B. Shivdasani, Hon. Secretary, (resigned in October); and (10) Dr. J. F. Bulsara, Hon. Secretary (invited to join in September 1945).

The following is the Summary of the panel's recommendations:—
New housing will have to be provided for about 4 lacs of persons in the City and for about 8 lacs in the suburban area.

Type of Housing recommended:—
(One-room tenement must disappear. Minimum covered floor-space per family residence to be 250 square feet for 4 persons exclusive of verandah and W. C. Minimum floor-area per person to be 60 square feet.

AMENITIES
In every family tenement, there must be 2 living rooms, a kitchenette with a small mori for cleaning and Shelves for keeping utensils, a Nahni with a tap and shower, and a W.C. A built-in cupboard, a raised platform for fireplace with a hood and chimney over it and a hollow underneath for storing fuel, pegs for hanging clothes and a minimum of 3 electric lights—should be additional facilities in every tenement.

The buildings should be of ground and three upper floors in the City and of ground and one upper floor in the suburban area.
For families of 5 to 6 and 7 to 8 persons there should be larger tenements of about 360 and 420 square feet, respectively.

HOSTELS FOR SINGLE MEN
There should be hostels for single men, women, boys and girls with necessary common facilities and dormitories as convenient spots for the homeless or vagrant.

In the City, the ratio of built to unbuilt portion of a plot should be 1 to 2 within a 4 mile radius from the Crawford Market and 1 to 3 beyond that radius in the City as well as in the suburban area.

There should not be more than 8 tenements of 250 square feet size on each floor of the building served by a single stair-case, and not more than 8 tenements of the larger size on each floor in a block or building.

ONE-ROOM TENEMENTS TO GO
The existing one-room and one-room-and-kitchen or two-room tenements should be so remodelled as to provide the above accommodation and amenities as far as possible.

Those that cannot be so remodelled should be demolished and rebuilt.
The size of a Unit or Colony in the City may be from 100 to 1,000 tenements and in the suburban area of 1,000 tenements each comprising about 5,000 to 6,000 persons.

SOCIAL AMENITIES IN EACH UNIT OR COLONY
The following social amenities should be provided in each Unit or Colony of 1000 tenements or groups of them and located within easy access and grouped conveniently, viz
A Primary School, a Welfare Centre

a Hall, Dispensary and Maternity & Child Welfare Clinic, Reading Room and Library, Play-grounds of adequate size for children and adults, a Co-operative Store, 15 to 20 Shops for articles and services of daily needs, a maternity home and clinic (at the rate of 3 beds for a population of about 4000), a Market (for about 4 or 5 Units) comprising 25000 to 30000 people), a Hospital (for about 50000), Post and Telegraph Office, and sufficient vacant space for a Secondary School and other buildings or institutions to meet public or Municipal needs, which may be erected in due course.

The residential housing should be within easy distance from the people's place of work as far as possible, and there should be adequate transport facilities provided for carrying the people to the nearest Railway Station or to their place of work as the case may be.

The Panel have adopted standards of housing for the citizens bearing in mind the existing conditions of the country and the fact that the housing will last for the next 60 to 80 years, and that with the rapid tempo of socio-economic changes, people's ideas of necessities and comforts of life will undergo an enormous change.

COST OF HOUSING:—
Land values vary in the City from Rs. 8 to Rs. 40 and Rs. 150 and over per square yard. Land costing more than Rs. 40 per square yard will not be economical for low-rent housing for the poor and working classes.

Land in the suburbs is estimated to cost Rs. 5 per square yard on an average, to be acquired by Government on a large scale at favourable market rates.
At an average of 60 square feet covered floor-space per person and an average rate of Rs. 25 to 30 per square yard, the cost of land (admeasuring about 35 to 40 lac square yards), for 4 lac persons in the City, will be from Rs. 9 to 12 crores.
At an average rate of Rs. 5 per square yard, the cost of land (admeasuring about 1.60 to 2 crore square yards) for 8 lac persons in the suburbs will be Rs. 8 to 10 crores.

CONSTRUCTION COSTS:—
The construction cost for 4 lac persons in the City and 8 lacs in the suburbs at an average of 60 square feet of floor-space per person will come to Rs. 46.40 crores.
The cost of housing for 12 lacs of persons inclusive of land and construction will thus amount to Rs. 103.40 to 108.40 crores.
The cost of social amenities like Schools, Dispensaries, Markets, Maternity Homes, etc. for 12 lacs of people at an average of Rs. 2 1/2 lacs for 1000 persons will amount to Rs. 6 crores.
The cost of remodelling about 2,35,483 one-room and about 52,637 one-room-and-kitchen or two-room tenement at an average rate of Rs. 500 per remodelling tenement, giving about 1 1/2 lacs remodelled or rebuilt tenements, will amount to Rs. 7 1/2 crores.
In deserving cases, the question of a reasonable subvention for remodelling according to the standards laid down may be considered.

RENTS:—
All Large Employers of labour, i.e., those employing 500 persons or more must assume a limited responsibility for housing their labour, whereas the Central and Provincial Governments as well as the Municipality, the Port Trust, the Railways and all such semi-governmental employers of labour and clerical workers should adopt as their programme and policy the provision of suitable housing at concessional and economic rents at least for employees earning less than Rs. 150 to 175 per month.

CO-OPERATIVE HOUSING:—
Co-operative Housing Societies and Tenant-Ownership Housing to be specifically encouraged.
SLUMS AND MILCH CATTLE.
STABLES
There are about 86 slum areas in the City comprising about 328 acres of completely built-upon land containing a population of about 1 1/8 to 2 lacs of persons.
The Panel recommend that a definite programme of slum clearance be laid down, whereby all the slums in the City are cleared within a maximum period of 25 years.
Ribbon Development on main arterial roads should be prevented by appropriate legislation, whereas overcrowding in the various types of tenements should be prevented by strictly enforcing the legislation for

NATURE CURE FOR POOR MILLIONS

Mahatma To Try His Experiment At Urli

POONA, March 21. (A. P. I.): Mahatma Gandhi is leaving tomorrow for Urli, a village in the Haveli Taluka about 20 miles from Poona, for a few days stay. The visit is being undertaken at the request of a number of prominent persons from the village who desired Gandhiji to see if the place was suitable for starting a nature cure clinic for the villagers.

Announcing this at his prayer meeting today, Gandhiji said that he had fought many battles in his life. There was one more battle to be fought, which was quite different from others and that was of nature cure.

Now in the evening of his life he had undertaken as part of his life's work the reach of poor millions. He was going to the village of Urli to work and try his experiment there.

Indian Immigration Bill Goes To Special Committee

NEW YORK, March 21 (Reuter): Mr. J. J. Singh, President of the India League of America, today announced that he had been informed officially that the Indian Naturalisation and Immigration Bill, which was passed by the House of Representatives last October and sent to the Senate Immigration Committee, has not been referred to a special sub-committee consisting of five Senators.

Mr. Singh told Reuter that he had no doubt that the committee would vote favourably on the Bill. From my contacts with Senators Joseph E. R. Burton, William Fulbright and Homer Ferguson, who are members of the Committee, I know that three members are in favour of the Bill. I understand that hearing on the Bill will be held shortly. Unless it is passed by the Senate Immigration Committee and then by the Senate and later signed by President Harry Truman before the Congress recess in July, the Bill will die and will have to be reintroduced in both houses next year.

the purpose, and in necessitous cases an easy changeover or exchange of tenements may be permitted.
Proper Zoning and Designing of layouts and buildings in the City and the Suburban Area:—
The City of Bombay has grown up haphazardly without a preconceived plan in the past, and now that an opportunity of a hundred years, planning ahead has presented itself, the Panel would like to lay particular emphasis on proper zoning with a view to providing housing in exclusively residential areas and separating areas of trade commerce, industries, noisy and noxious trades, educational institutions, civic centres etc., in their appropriate zones with an eye to utility, accessibility, common convenience, prevention of wastage, congestion etc.

GENERAL OBSERVATIONS:—
In order to keep down costs and control the proper siting and layout of housing and trades and industries, special legislation should be enacted to acquire land at reasonable rates in the City and suburbs so as to allow the unearned increment due to development to accrue to the community. Such purchased land should not be resold by Government or the Housing Authority concerned, though in necessary cases it may be leased out on short or long terms according to circumstances to private parties. The Housing Project of Greater Bombay is of considerable magnitude involving an expenditure of about Rs. 120 crores over a period of 25 years, the average annual expenditure being nearly Rs. 5 crores. This will have a tangible effect on the City's economy and particularly the building trade.

The Master Plan of the next 75 to 100 years for Greater Bombay will have to be prepared in co-operation with various authorities like the Regional Planning Committee, the Communications Committee, the Local Housing Authority, the Milk Production and Distribution Board, etc., who are dealing with various problems relating to the City and between whom a regular liaison should be maintained.

Colonialism On Its Last Legs, Says Nehru

"IT REMAINS TO PUSH OPEN DOOR OF INDIA'S FREEDOM"

SINGAPORE, March 22 (A.P.): Pandit Jawaharlal Nehru arrived at Seremban, the neat-looking capital of Negrisembilan at 9-50 a.m. on Thursday. A crowd of 10,000 cried "Nehru Ki Jai" as his car pulled alongside the entrance of the Negrisembilan Club grounds.

Pandit Nehru was received by Major Mrs. Devar, ex-Deputy Commander of the Rani of Jhansi Regiment, and members of the reception committee and led to the flagpost. While hoisting the flag, girls of the Balak Sena in uniform sang the Indian National Anthem and the Chinese played band.

Pandit Nehru then inspected a Guard of Honour composed of 500 I.N.A. officers and men, a hundred members of the Malayan People's Anti-Japanese Army, 20 members of the Rani of Jhansi Regiment and 20 members of the Balak Sena.

Pandit Nehru then mounted a rostrum where he and Mr. Hutchesingh were garlanded.

Addressing the gathering, Pandit Nehru said: "It is nine years since I came here. Malaya then was a pleasant country rather cut off from world currents and hardly knowing anything of world politics. It was a pleasant and rich country where people could easily make a living."

DOOR OF FREEDOM.
"But during these years Malaya has passed through the fire many times and so I take it all of you have grown up in many ways. Today you have many problems which you did not have previously. In India too we have to face many problems. For years we have been struggling for independence. Now we have come to the very door of freedom. It remains to push back the door open. For the last 180 years India has been the focal point of the colonial struggle. When India attains her freedom, she will be the focal centre of freedom for countries round about also."

"India and China are the oldest countries in civilization and culture. For thousands of years India and China had very close relations. For all these long years you did not see any sort of aggression on the part of either. Here is an instance of two great countries living in peace and friendship, living close to each other."

Jhansi Regiment Members Signed "Suicide Pact"

Later It Was Abandoned At Netaji's Persuasion, Reveals Lakshmi

MADRAS, March 22 (A.P.): "In certain quarters the I.N.A. was being judged in terms of rifles and its exploits abroad. The healthy attitude towards it, on the other hand, should be to appreciate its sense of loyalty to the country and its organised efforts to free the 'country' from foreign rule," said Capt. Lakshmi at a Press conference to-day.

Giving an account of the formation and working of the Rani of Jhansi Regiment, of which she was Commandant, she said that on February 13, 1943, she met Subhas Bose by appointment and asked to be allowed to join the I.N.A. and serve it in any capacity. She was then appointed Secretary of the Indian Independence League at its headquarters. It was then she was the League's Secretary that she, with the co-operation of Subhas Chandra Bose, laid out the plans for the organisation of the Rani of Jhansi Regiment.

From July to October, 1943, a large number of volunteers were obtained and the force thus raised started functioning at Singapore with an initial strength of 185 women, largely drawn from South Indian parentage. Later when the force rose to the strength of a thousand or thereabouts, an attestation parade was held at which members of the Jhansi Regiment signed the "suicide pact," which Capt. Lakshmi explained to mean that should any member of her force fall captive to the British she should commit suicide. The "pact," she said, came latterly to be abandoned at Mr. Bose's persuasion as he held that the spirit of the I.N.A. could largely be revived only by women of the Jhansi Regiment when they returned to their home country.

Capt. Lakshmi disclosed that the last occasion when Subhas Bose was at a hospital in Kailash on February 27, 1945, where he had come on a tour of inspection.

Captain Lakshmi added that she was uncertain of her plans for the immediate future but she "would think and come to a conclusion shortly."

Seeds Of Future Racial Wars

NAGPUR, March 21 (A.P.): The anti-Indian Legislation proposed by the South African Government was criticised by Dr. N. B. Khare, Government Relations Member, Government of India, at the Nagpur Journalists Association today.

The Asiatic Land Tenure Bill now before the Union Parliament had in it seeds of future racial wars and conflicts, declared Dr. Khare expressing his personal opinion.

Britain's Most Fateful Showdown In India Predicted

NEW YORK, March 21. (U.P.A.): "Newsweek" to-day predicted in an article that "for the British Empire, the most fateful showdown in the near future may come not with the Russians at the U.N.O. or elsewhere, but with the Indians in India."

"The twin crisis of politics and famine will reach its peak within a few weeks," Newsweek said, adding that there is little Britain can do to prevent the starvation of perhaps millions.

However, the magazine said that the "British hope that they will be able to avoid a civil war in India because of the weakness of the Moslem League and because they will insist on safeguards in the constitution of India for protecting the Moslems who have been their traditional supporters against the Hindus."

NEVER WITH SUCH CONVICTION.
NEW YORK, March 21. (Reuters): The widely-read American magazine "Time" leading its foreign news section with the British Ministerial Mission to India, to-day asserts: "Britain had offered India self-government before but never with such conviction and never with so few strings."

The Prime Minister Mr. Attlee's declaration of immediate choice between Dominion Status and independence could not demolish the biggest obstacle to Indian independence—division between Hindus and Moslems.

In Mr. Attlee's words, Mr. Jinnah's cries of pain and anger, and an unofficial British comment, observers saw signs that the British, often accused of supporting the Moslems against the Hindus, were ready to work for Indian unity."

one-room tenements are twice as high as in sanitary areas. Epidemics generally start from slum lands and spread to the rest of the city. And we have 85 stables and 30 milch-cattle stables in the heart of our city! The accommodation is not at all adequate. The one-room and one-room-and-kitchen tenements, a large number of which are unfit for humans to live in, as Gandhiji said in the course of his visit, should disappear once for all as family dwellings. The minimum accommodation recommended for a family member is 250 sq. ft. exclusive of a verandah. When we remember that Russia has laid down standard of minimum floor-space of 400 sq. ft. for the small

What Makes Entertainment?

Brief Analysis Of Three New Films
By "SARDI"

Many are the facets of film entertainment. The French saying "Chacun A Son Gout" (each man to his taste), applies only too well to picturegoers. Some like undiluted tragedy, others realism, others escapism pure and simple.

Ranjit's RAJPUTANI, Jayant Desai's "SOHNI MAHIWAL", and Rajkumar's "DR. KOINIS" provide interesting studies in contrast, in the realm of celluloid entertainment.

PAST GLORY

A nation such as ours, whose culture has been forcibly suppressed by alien cultural aggression, finding itself on the threshold of a renaissance, suddenly begins to look back on its past history and, forgetting the imperfections that must surely have existed as much in days gone by as they exist today, begins to cast a halo round the vanished times.

Thus, "Rajputani" the past doth gain a glory from its being far, and orbes into the perfect star we (our ancestors, in this case) saw not when we (they) moved there. Rana Pratap Singh rises as a mighty hero who fought a glorious fight to free the State of Mewar. No Indian worth his salt, can fail to admire the courage of this man. Ranjit has seen to it that he is presented in the light of a patriot.

BIPIN GUPTA plays Pratap Singh, VEENA is the Rajputani, and JAIRAJ enacts the role of Shakti Singh. They all help to provide entertainment by arousing in us a pride of the past, that has found expression best, in the over-worked phrase "the glory that was Ind." Director Aspi must take his due mead, as well as Bulo

C. Rani for his music and Pt. Indra for his songs.

REALISM

"DR. KOINIS KI AMAR KAHANI" seeks to arouse in us admiration not of past heroes, but of contemporary ones. It makes us feel proud that we have among us as valiant men now as in days of yore.

Dr. Koinis is as great a figure as Pratap Singh—perhaps greater. His love, embraced not merely his own people, but all humanity. This led him to join the Congress Medical Mission sent, some years ago, to China, where he fell in love with and married a native of our great neighbour, who, later, became the mother of his child.

But to India he did not return with his comrades, for, before that, death claimed this selfless soul. Ahmed Abbas resurrected him in his book "One Did Not Come Back", and now SHANTARAM, playing the part himself, brings him to the screen.

JAYASHREE plays the Chinese girl, while Ullhas, Baburao Pendharkar, Dewan Sharar and Salvi are others in the cast.

This moving screen document of a great life, entertaining because it proves that heroism is always with us and that we do not have to look back constantly to find it in the ghost of long-dead ancestors.

ROMANCE

Since time immemorial, the human heart has been moved by love and all its hues of light and shade. True indeed is it that all the world loves a lover even if he loses his prize.

"Sohni Mahiwal" is the story of an ill-starred couple: a potter's daughter who loved a man above her station in life—a merchant from Bokhara. Their

hearts met, but custom divided them unto death. Tragedy is not pleasant, but it stirs the emotions, and to some this may be an appropriate form of entertainment. BEGUM PARA and ISHWARLAL play the romantic couple, receiving support from MUBARAK and DIXIT.

These three pictures provide a variety that admirably caters to differing tastes, thus helping to provide entertainment for diverse persons.

of 27-12-45. In reply I wish to point out as under:

It is a fantastic idea to co-ordinate all Muslim charitable trusts and use their joint resources for the highest educational purposes of all Muslims.

At the same time to carry out the wishes of the donors and preserve intact the constitution of various trusts. For example, I have built a sanatorium at Matheran for the benefit of the poor.

My trust is to give a change of climate to poor and middle class needy Muslims. Khaja families to rescue their health.

Will Mr. Moledina explain how this trust could be used for the purpose of higher education? Moreover, Mr. Moledina propose to carry out my wishes stated in the trust deed? How can this be co-ordinated with the higher educational scheme of general Muslimana? Moreover, why should I set aside the trustees of my choice for my trust and leave it to be administered by the so-called Muslim High Command in whom I have not the least trust or confidence? It is evident that such a trust is not meant for educational purposes. It is a trust for the purpose of imagination and is not at all meant for the benefit of Muslims.

Moreover, the trustees of the so-called national interest and general welfare of the Muslims, the charities pooled will pass into the hands of a clique who will be masters of the whole charitable endowments and will use it to suit their fantastic purpose to achieve their own end. This will create a sort of monopoly business and all incentive to give charity in future will be destroyed.

As regards Mr. Moledina's fear that the present court machinery is not efficient to bring to book offending trustees, I have only to say that it is quite possible and easy to devise appropriate machinery by amendment of Wakf Act from time to time so that no loop hole is left and smooth functioning of the trusts is possible.

To think of co-ordinating all the charities as a remedy to mismanagement, is a remedy worse than the disease itself and will bring in its train untold calamity to the Muslim Community as a whole and will give ample scope to unscrupulous, clique to the co-ordinating high command. To my mind the idea of co-ordination is only to end up with the hand of the Sunnis who have inadequate charities in proportion to their numerical strength. Under the war cry of Muslim solidarity and Muslim unity I warn my Shia brothers not to fall a prey to the hollow cry of the designing persons and they should not be led away by their dishonest tactics and pious platitudes. Such a scheme if at all it comes into existence will be far from benefiting the general Muslims in any way only make the Shias a back number in the community and detract them from the high position of culture and education which they have attained by dint of self-help and mutual communal charities.

OUR READERS' VIEWS

In G. O. M.'s Memory

Nowadays it has become a regular fashion amongst our City Fathers to renege prominent roads of our city after public men whom they cherish as patriots; but till now they have not cared to render the city's due tribute to one of the greatest patriots, namely, Dadabhai Naoroji.

When our countrymen were in political lethargy and when they were slavishly surrendering themselves to the whims of the British bureaucracy, this great personage came forward to ventilate the public grievances and boldly criticise the ruthless exploitation of India, simultaneously arousing public opinion against the foreign domination. He knocked open the doors

of the British Parliament in order to expose to it the undemocratic and un-British rule of India. He thus raised the status of Mother India in the international world. It was he who pioneered the Indian National movement and in collaboration with a number of co-workers, became the founder of the Indian National Congress and determined "Swaraj" as its cherished goal.

To such a pioneer patriot our City Fathers have not cared to render the due public tribute by attaching his revered name to a main public road of our city.

FAIR DEAL

Training For Industries

We have seen that Indian officers in all the three services have proved their mettle in this war. It is gratifying to note that Central and Provincial Governments have appreciated the valuable services rendered by men lent to them by industries and other organisations for administering control on the various industrial and civil supplies and such other jobs.

And now opening the Silver Jubilee sessions of the Institute of Engineers (India) His Excellency the Viceroy Lord Wavell has rightly said, "In India there is no lack of ability, but there is a lack of training and experience."

Indian industrialists directors of joint stock companies and managers of Indian branches of foreign companies who have recruited during war years a few talented persons to enable them to use initiative, vision, keenness, tact and such other qualities. Responsibility should be gradually taken on them to enable them to be self-reliant and adaptable. In short the future of the young blood should not be left to look after itself.

Also realising that these men will have, in many cases, to administer a large organisation of technicians skilled and unskilled labour, the salaries and other emoluments should be so generous as to enable them to maintain a status which will help them to command respect of the subordinate staff. In these cases ordinary methods of service promotions should not be adopted.

Cotton Displays Hesitant Tendency With Mixed Trading

BOMBAY, March 22. The Share Bazar opened steady at about the last closing level and after recording small gains, resumed downward tendency on general unloading. As anticipated the market looks like sagging but sellers remain cautious. It is now generally realised that short sales prove more helpful in raising prices than actual buying by professional operators. Today being the week-end session there was less disposition to increase risks and the market was quiet, with a sagging tendency; speculative support seems to have been withdrawn. Tata Steel Dids. opened at Rs. 2,985 and improved to Rs. 2,990, but declined to Rs. 2,940 under renewed selling pressure. Ordinary shares opened at Rs. 329, and declined at Rs. 324. Bombay Dyeing Shares opened at Rs. 2,395, and quietened at Rs. 2,380. Kohinoor Mill Shares opened at Rs. 820 and declined at Rs. 793. Later on there was mixed trading and Tata Steel Dids. were quoted at Rs. 2,947. Ordinary Shares stood at Rs. 318. Bombay Dyeing Shares were quoted at Rs. 2,372 while Kohinoors were quiet at Rs. 796. Towards the close there was further selling which resulted in steady decline in quotations. Tata Steel Dids. eased off at Rs. 2,935 and Ordinary shares were quoted at Rs. 314. Bombay Dyeing Shares declined at Rs. 2,355 and Kohinoors were placed at Rs. 793. Tone of the market was easy at the close. As a result of day's trading, Tata Steel Dids. lost Rs. 4 1/4, Ordinary Rs. 12, Bombay Dyeing Rs. 37, Kohinoor Rs. 27, Swadesh Rs. 14, Nagpur Rs. 10, Simplex Rs. 8, New Great Rs. 6 and A. C. C. Wall Street Prices Stiffen Under Leadership Of Steels

Redrafting Of Margin Proposals Hardens Cotton Market

NEW YORK, March 21. Wall Street opened irregular and moderately active. Scattered rallies and industrialists made further headway, although elsewhere many leaders were at a standstill. Dealings slowed up towards noon with gains of fractions to one in the majority of cases. There is growing conviction in brokerage circles that February lows may hold at least for early 1946 market correction. There is nothing to suggest that the recent comparatively narrow trading pattern is likely to be abandoned immediately. The main anxiety continues to be the international situation, although the possibility of a coal strike and continuance of the Westinghouse strike were other deterrents in the afternoon. Prices stiffened under the leadership of numerous pivots including steels, oils and metals and gains of fractions to 1/8 were widespread. Buying was based on individual situations with oil especially helped by expectations of a suspension of acreage ceilings. There were widespread buying including aircrafts and rails as caution, however, was not relaxed. The session closed firm. American Telephone 190 1/2 (190 1/2), Amerex Corp. 36 1/2 (36 1/2), Alcoa 46 3/4 (46 1/4), Chase National 42 3/8 (42 1/8), Sinclair Oil 19 (19 1/4), Firestone 78 1/2 (78 1/2), General Electric 46 3/8 (46 5/8), General Motors 71 3/4 (72 1/4), Ingersoll Rand 131 (131), International Nickel 37 1/2 (37 1/2), National City Bank 44 1/8 (44 1/4), Socony Vacuum Corp. 15 7/8 (16), Texas Corp. 56 1/4 (56 1/2), Union Carbide 109 1/2 (109 1/4), U. S. Smelting 68 (68 1/4), U. S. Steel 153 1/8 (153 1/8), Western Union Telegraph 39 5/8 (39 5/8).

RISE IN COTTON PRICES.
New York Cotton market opened steady on moderate trade support and a few price-raising orders which extended the upward movement. Thereafter prices moved narrowly though the early gains were maintained owing to paucity of offerings. Fresh news and general tendency to await Washington legislative and margin developments continued to retard price activity. It is reported that the threatened margins have been delayed by the O.P.A. which is redrafting the price schedule. This uncertainty kept speculators cautious, as did continued references to war administration officials' reiterated warning against speculation. A mid-day the market was quiet. The market held steady during early afternoon. The price of cotton futures moved either side pending some further Washington enlightenment. Later by however prices developed a firm trend with the early gains extended owing to increased mid-price fixing. This found contracts becoming increasingly scarce which possibly reflected Senator Thomas' statement that he would attempt to have farm products removed from O.P.A. price controls. Old crops again led the market which closed very steady.

CHICAGO GRAINS MARKET.
The market was firm attributed to renewed talk that wheat and maize ceilings may be raised in order to move these grains off farms, the smaller than expected maize acreage and Washington reports that Senator Thomas would seek the removal of agricultural items from office of price administration, 2009 March 21.
